

**Chair of the School of Architecture
College of Design
Georgia Institute of Technology
Atlanta, Georgia**

The College of Design at Georgia Institute of Technology invites nominations and applications for the Chair of the School of Architecture. We are seeking a strong academic leader who can fuse our strengths in building design and research into a national and internationally recognized center of excellence in design pedagogy for the 21st century. The Chair is responsible for providing leadership in the intellectual, creative, and scholarly life of the School. The position will be a tenured faculty member with the rank of Professor or Associate Professor.

Candidates must have a terminal degree in Architecture or a closely related field with a distinguished record of scholarly achievement that qualifies for a tenured position. Significant experience in academic or research administration is desirable. The successful candidate will have an outstanding record of scholarship or practice and be able to contribute to the teaching mission of the School. Additionally, the successful candidate will also maintain an active commitment to the profession and to the promotion of excellence in teaching and research and must have the ability to engage with community and corporate leaders and work effectively with faculty, students, and administrators. Candidates must have a strong commitment to faculty/staff development, diversity and inclusion, and the promotion of collaboration and innovation.

The School of Architecture has 22 tenured/tenure-track faculty, along with a strong contingent of Professors of Practice and adjunct professors drawn from the practice community, outstanding students, and a large and supportive alumni base. The School is the largest of five schools within the College of Design. It offers a B.S. in Architecture, a professional Master of Architecture, a Ph.D. in Architecture, and several specialized M.S. degrees. The school has recognized strengths in Design Computation, Advanced Production, High Performance Building, Design and Health, and Urbanism.

Georgia Tech is located in the heart of the Atlanta metro area that offers many opportunities for students and faculty. Georgia Tech is a dynamic institution committed to creating interdisciplinary solutions to the grand challenges facing our nation and our world. Georgia Tech's mission is to develop leaders who advance technology and improve the human condition. The mission of the School of Architecture is to instill in our students a life-long curiosity about the social and cultural meaning of the built environment and a passion to be part of improving the future. We educate our students to understand architectural and urban design as a creative, aesthetic, technical, and research-based pursuit that necessarily crosses disciplinary boundaries.

Diversity is one of Georgia Tech's core values. We believe that diversity includes the individual differences among people from differing social, racial, or ethnic backgrounds, gender, sexual orientations, gender identities, physical abilities, and life experiences. We strongly encourage applications from women, underrepresented minorities, individuals with disabilities, and veterans.
